Seed and Planting Stock Record

Organic seeds must be used unless there is no organic equivalent for a given crop variety commercially available. Use this form to keep track of seeds and planting stock purchased for use in organic production.

Farm Name: _____ **Crop Year:** _____

Seed and Planting Stock Information					For non-organic (N) seeds ONLY	
Crop	**Variety**	**Supplier**	**Lot #**	**Organic Status* (O or N)**	**Confirm GMO/ treatment status?**	**Document search for organic equivalent?**

*In the organic status column, indicate whether the seeds are certified organic (O), or non-organic (N). Organic seeds should have certificates available for review at inspection. Non-organic seeds must be non-GMO and untreated or treated only with allowed substances. For non-organic seed, indicate Yes or No in each of the last two columns. If you cannot answer Yes to both questions, you MAY NOT use that seed!!
