

Organic Wine Labeling

CCOF

Know the Facts About Organic Wine Labeling

If wine is labeled as “Organic Wine”:

1. Grapes have been grown in accordance with the organic standards established by the USDA National Organic Program (NOP).
2. Wine has been produced and bottled in a certified organic facility.
3. Wine contains no added sulfites.
4. These wines MAY display the USDA ORGANIC logo and/or the certifier’s logo.

If wine is labeled “Made with Organic Grapes”:

1. Grapes have been grown in accordance with the organic standards established by the USDA National Organic Program (NOP).
2. Wine contains all organic grapes.*
3. Wine has been produced and bottled in a certified organic facility.
4. May contain added sulfites up to 100ppm.
5. These wines DO NOT display the USDA ORGANIC logo but MAY display the certifier’s logo.

*Products which contain organic and non-organic grapes must indicate the presence of non-organic grapes in the “Made with Organic...” statement on the label.

If wine is labeled with an Organic Ingredient statement only:

1. Wine contains at least some certified organic grapes.
2. The wine is not required to be made at a certified winery or be certified.
3. These wines DO NOT display the USDA ORGANIC logo nor the certifier’s logo.
