

OCal Labeling Guide

This guide describes labeling requirements for OCal cannabis products (nonmanufactured and manufactured). All labels applied by CCOF-certified operations must be pre-approved by CCOF prior to printing.

- ▶ **Nonmanufactured cannabis products:** flower, shake, leaf, pre-rolls, and kief that is obtained from accumulation in containers or sifted from loose, dry cannabis flower or leaf with a mesh screen or sieve [3 CCR 10000].
- ▶ **Manufactured cannabis products:** cannabis that has undergone a process whereby the plant material has been transformed into a concentrate. This includes, but is not limited to, concentrated cannabis, an edible or topical product containing cannabis, or concentrated cannabis containing other ingredients [17 CCR 22000]. Cannabis extracts must only be extracted using water, steam, ice, dry ice, organic butter, organic oil, organic ethanol, carbon dioxide, or mechanical methods [17 CCR 22035(c)].
- ▶ Products may be subject to additional cannabis labeling requirements pursuant to Division 10 of the Business and Professions Code and its implementing regulations. This guide is for reference only and does not supersede any local, state or Federal regulations.
- ▶ OCal seals can be downloaded at the bottom of the [CDFA OCal Website](https://www.cdfa.ca.gov/OCal-Website). CCOF logos can be downloaded at www.ccof.org/labeling
