

ORGANIC CERTIFICATION

Service, Support & Integrity

**Farmers • Processors • Livestock
Services • Private Labelers • Ingredients • Retailers**

CCOF advances organic agriculture for a healthy world. We advocate on behalf of our members for organic policies, support the growth of organic through education and grants, and provide organic certification that is personal and accessible.

We're your partner in the organic movement. We make organic certification seamless by providing:

- Online certification management
- Personal service throughout the United States
- International export services
- Food safety services
- Certification support tools
- An "Organic is Non-GMO & More" seal

CCOF is accredited by the U.S. Department of Agriculture to certify to the National Organic Program standards.

To learn more, visit www.ccof.org »

CCOF's Expedited Certification Program

WHEN YOU NEED ORGANIC CERTIFICATION FAST

CCOF is dedicated to providing cost-effective service. Due to the complexity of the application review, inspection, and inspection report review process, we recommend that certification applications are submitted 12 weeks prior to organic harvest, projected sales, or other deadlines.

If you have a short certification time frame, we provide expedited services to meet your needs. Complete the expedited application on www.ccof.org and return it by email to inbox@ccof.org or by fax to **(831) 423-4528**.

Who is this program for?

- » Operations that are capable of compliance and wish to finish the certification process as soon as possible (such as impending harvests, market releases, or product launch deadlines).

What will CCOF provide?

- » Your application receives top priority processing. All correspondence will be emailed, faxed, or shipped to you as efficiently as possible.
- » CCOF will begin securing an inspector immediately. Once your application is reviewed and accepted, your inspection will occur as soon as possible based upon your schedule and inspector availability.
- » The inspection report will be submitted to CCOF within two business days of the inspection.
- » CCOF will review the inspection report upon receipt and identify outstanding issues or grant certification within three business days.

Can certification be guaranteed by a certain date?

No, certification is dependent upon compliance onsite, the completeness of your application, and the inspector's findings.

How much does expedited service cost?

- » New certification applicants and annual inspections (with or without new land, facilities, etc.); includes application fee: \$2,300
- » Addition of a new facility or equipment to your existing certification; includes facility/equipment fee: \$1,950
- » New acreage at a CCOF-certified farming operation: \$1,250
- » Standard additional acreage, inspection, and annual certification costs still apply, as applicable. See the Certification Services Program Manual for details. Expedited services may incur higher than average inspection expenses.

What is expected of me?

- » A complete application describing your organic practices.
- » Timely responses to requests for information during the application and inspection review processes.

What if I don't enroll?

CCOF will process your application as quickly as possible and provide you with high-quality service. Every effort will be made to ensure the process is completed efficiently.

Start the organic certification process today! »

MyCCOF Online Certification Management

INNOVATIVE ONLINE CERTIFICATION TOOLS

Managing organic certification just got easier.

MyCCOF is the most powerful tool in organic certification. Monitor your certification and renewals, access key documents, track the inspection and certification process, respond to action items, search for and add approved materials, and much more—all from your computer screen.

MyCCOF is free for CCOF-certified members. Visit www.ccof.org/myccof to get started.

Use MyCCOF to:

» Get Your OSP Online

Download your current OSP in real time, whenever and wherever.

» Find What You Need

It's easy to find and change the documents that maintain your certification.

» Find Materials & Track Your Approved List

View the materials CCOF has approved for your operation. Plus, remove, search, and add new materials as you need them!

» Download Certificates

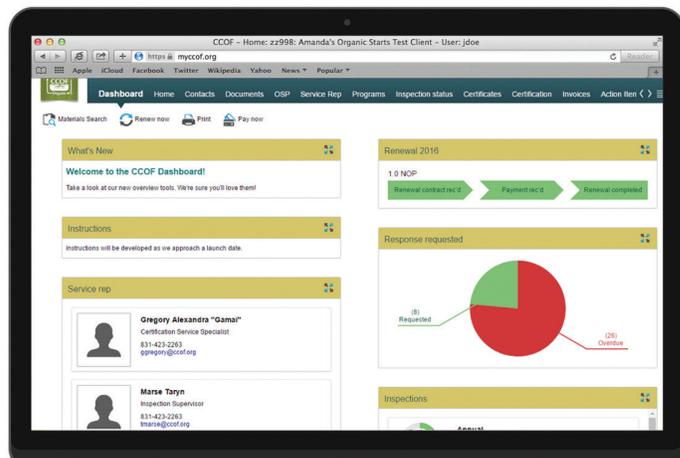

Find the most current version of your certificates and download for suppliers.

» Monitor Inspections

Follow the inspection process. Access inspector contact information, find reports, and stay informed.

» Track Action Items

Review the status of outstanding requests from CCOF or check on updates you've made with us. Plus, upload documents to respond to current action items.

» Stay Organized

Download letters and respond to CCOF requests. Find your CCOF service staff and more.

» Pay Bills

Track invoices and pay online!

» Manage Your Public Profile

Publicize your company statement, sales methods, and social media sites through our online organic directory.

» Track Clients & Facilities

Manage several CCOF-certified operations with a single login. Great for consultants and partnerships!

» And More—Continual Improvements

CCOF is dedicated to making organic certification easy to manage, and we're continually innovating new ways to make MyCCOF even better than before.

Visit www.ccof.org/myccof today to let MyCCOF work for you!

Certification Made Simple

SEARCH

for materials approved for
use in organic production

ADD

new materials to your
Organic System Plan (OSP)

Need to add materials to your OSP? It's easier than ever before.

With MyCCOF Materials Search, you'll never again guess if a material has been reviewed. All CCOF internally-reviewed materials, OMRI Products List® materials, and WSDA Brand Name List materials can be searched in one place. Plus, you can request OSP changes online day or night, from any device.

» Find What You Need in Our Library

View all CCOF internal material review information, plus OMRI Products List® materials, and WSDA Brand Name List materials. Know what has and has not been approved in the past and view the status of any reviewed material.

» Easily Add to Your OSP

Request addition of materials to your OSP with the click of a button.

» Save Time

No longer is a phone call necessary to add materials. Take control and add to your OSP whenever, wherever; even with a smartphone!

» Get Notifications

Receive updates as soon as your materials have been reviewed and are ready to use.

Are your CCOF suppliers' certifications current? Track them with confidence.

Buyers and distributors of organic products will love the "Track a CCOF Supplier" feature in MyCCOF. This one-of-a-kind service offers tracking and management of CCOF-certified suppliers. Add your suppliers today!

» Get the Green Light

Easily identify your supplier's standing: green, yellow, or red indicators allow for quick review of certification status.

» Easier Purchasing

Better tracking maintains organic integrity. Find all your CCOF-certified supplier data in one place.

» Real-Time Notifications

Receive immediate email notification if any certification status changes.

» Instant Certificates

Track certifications and get your suppliers' certificates as soon as they are created. Conveniently search for certificates by date.

» Faster Inspections

Fly through your inspection with an organized queue of suppliers and real-time access to their certification status.

» Organize and Prepare

Never accept an uncertified load again! MyCCOF's "Track a CCOF Supplier" feature will save you time and costly mistakes.

CCOF COR COMPLIANCE CERTIFICATION CONTRACT

- ▶ **CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada**
- ▶ Please see the [CCOF COR Compliance Program Manual](#) for information about who should enroll in this program and the requirements.
- ▶ CCOF recommends beginning the application process with sufficient time before certification is required to allow for the necessary inspection and review process. While in some cases certification can be provided in a very short time frame, providing up to twelve weeks is recommended. Expedited services are available.
- ▶ Please keep a copy of all documents submitted to CCOF for your records.
- ▶ See www.ccof.org/certification/how or contact us with questions. Find all forms at www.ccof.org/documents.
- ▶ **Complete and send the following to apply for certification:**
 - CCOF COR Compliance Program Certification Contract (this 5-page form)
 - Organic System Plan (OSP) forms and attachments
 - Carefully review the Organic System Plan (OSP) Guide and complete all forms indicated:
 - [Guide to COR Handler OSP Forms](#)
 - \$325 Application fee
 - Non-refundable and due with application
 - My credit card information is on page 5 I have included another form of payment
 - I have a discount code: _____

Email to: inbox@ccof.org Or Mail to: CCOF, 2155 Delaware Ave., Suite 150, Santa Cruz, CA 95060

▶ How did you hear about CCOF? _____

D. Certification Program Information

1) Which organic standards are you applying to be certified to? Check all that apply:

For more information about CCOF certification programs, or to determine which program(s) you need, visit www.ccof.org/standards to review the CCOF Certification Services Program Manual or contact us by phone or email.

Canadian Organic Regime Compliance:

Base program only for operations in Canada. Complete the COR Organic System Plan.

CCOF Global Market Access Program:

Export verification for the US, EU/UK, Switzerland, Japan, or Taiwan. Complete the [GMA application](#).

2) Does this operation produce or handle:

Both organic and nonorganic product(s) Organic product(s) only

3) Please indicate any markets you export to directly or indirectly (as an ingredient or through brokers/traders etc).

USA Europe Japan Taiwan Switzerland Mexico Other: _____

4) By what date do you anticipate the need for certification? _____

The certification process could take 12 weeks or longer. If you need a shorter timeline you can enroll in the Expedited Certification Service.

5) Is your operation currently certified organic?

No Yes, provide name of certifier: _____

CCOF COR COMPLIANCE CERTIFICATION CONTRACT

- 6) Has this operation ever previously applied for, or been granted, organic certification
 No. Skip to section E. Yes. Complete this section and provide name of certifier: _____
- a) Was your certification or the certification of fields or products ever suspended or cancelled? Yes No
b) Did you surrender your certification with outstanding non-compliances? Yes No
c) Did you withdraw your application for certification with outstanding non-compliances? Yes No
- 7) If you answered yes to a, b, or c above, please list the years and agencies, attach a copy of all relevant letter(s) and a description of all corrective actions:
Year(s): _____ Letters Attached
Corrective actions taken: _____

E. Annual Certification Fee

CCOF will estimate and invoice your certification fee based on the information provided below and collected at the initial and subsequent inspections. Please refer to the CCOF Certification Services Program Manual for fee information. **Certification fees must be paid prior to issuance of certification.** Enter your credit card information on page 4 or attach another form of payment.

- 1) **All Operations:** _____
Current or expected organic production value (next 12 months)
- a) **Farm and Livestock operations:** _____
Current or expected cost of certified organic seed and/or feed purchased (next 12 months)
- b) **Handlers/processors/private labelers and other non-farm businesses:** _____
Current or expected cost of certified organic ingredients/products purchased (next 12 months)
- c) **Retail and Restaurant operations:** _____
Current or expected number of stores (next 12 months)

CCOF COR COMPLIANCE CERTIFICATION CONTRACT

Operation Name: _____ Date: _____

F. Certification Contract and Agreement

► The following must be signed by a legally authorized representative of any operation by all applicants for certification by CCOF.

By signing this document, the applicant acknowledges that it has received, has read, fully understands, and agrees to be bound by the CCOF CS Certification Manuals and agrees to:

- 1) For operations seeking NOP certification: Comply with all State and applicable organic production and handling regulations as described in rules issued by the United States Department of Agriculture Agricultural Marketing Service (including those regulations in 7 CFR Part 205 and the NOP Handbook as published on the USDA AMS NOP website).
- 2) For operations seeking COR certification: Comply with all Province and applicable organic production and handling regulations as described in rules issued by the Canada Food Inspection Agency
- 3) For operations seeking CCOF GMA or International Standard certification: Comply with the requirements set forth in the CCOF GMA or International Standard Certification Manual, respectively.
- 4) For all operations: Comply with and strictly adhere to all CCOF standards, procedures and policies described in the CCOF Manuals including but not limited to the following:
 - a) Establishing, implementing, and updating annually an Organic System Plan that will be submitted to CCOF.
 - b) Permitting on-site inspections with complete access to the production or handling aspects of the operation, including non-certified production areas, structures, or offices by CCOF. These inspections may be announced or unannounced at the discretion of CCOF or as required by an accreditation authority, government entity with jurisdiction, or other governing body.
 - c) Maintaining all records applicable to the organic operation for not less than five (5) years beyond their creation.
 - d) Allowing authorized representatives of CCOF, an accreditation authority, government entity with jurisdiction, or other governing body access to these records under normal business hours for review and copying to determine compliance with the applicable standards, regulations or governing law.
 - e) Understanding CCOF may use subcontractors for inspecting, testing and other technical services, as necessary.
 - f) Submitting to CCOF any applicable fees as described on the most current fee schedule.
 - g) Immediately notifying CCOF concerning any application, including drift, of a prohibited substance to any field, production unit, site, facility, livestock, or product that is part of an operation.
 - h) Immediately notifying CCOF of any change in your certified operation or portion of it that may affect its compliance with the applicable standards, regulations or governing law.
 - i) Using the CCOF name and seal(s) only in accordance with CCOF standards and ceasing all use of CCOF's name and seal upon notice by CCOF. Any use of CCOF's names or marks, without the express consent of CCOF, is strictly prohibited and constitutes an infringement of CCOF's rights. CCOF shall be entitled to its reasonable attorney's fees and costs incurred in bringing any civil action, arbitration, or mediation to enforce its rights to its names or marks.
 - j) Destroying or returning to CCOF all packaging and certificate(s) upon notice from CCOF.
 - k) Understanding that the use of the CCOF name and seal must be in accordance with the CCOF standards.
 - l) Authorizing CCOF to list certified parcel crops, products, services, and acreage on my certificate and in the CCOF Directory.
 - m) Immediately ceasing all claims of CCOF certification associated with this operation, and destroying or returning all certificates, labeling, and marketing material containing reference to CCOF in the event that this operation withdraws, or its certification is suspended or revoked.
 - n) Agreeing to be legally bound by the policies on Governing Law, Consent to Jurisdiction, Indemnification and Limit of Liability as described in the CCOF Certification Program Manual section 6.

I, the owner or legally authorized corporate representative, acknowledge the above General Requirements for CCOF certification and understand that any willful misrepresentation may be cause for denial of an application and sanctioning of certification. I authorize the person(s) listed above to act on behalf of my company in establishing or maintaining organic certification. I attest that all information in this application is true and accurate to the best of my knowledge:

Operation Name: _____ Date: _____

Complete this form if you manufacture, process, label, physically handle, broker, trade, distribute, resell organic products or contract another certified operation to process and/or package organic products in your brand or label (private label owner/marketer).

A. Organic Products and Ingredients

1) For ingredients listed on your H2.0A COR Ingredient Suppliers and COR Handler Materials Application (OSP Materials List), do you source and procure the ingredients and materials?

- Yes No Not applicable, no ingredients/materials sourced.

a) If no, indicate who sources these ingredients or materials: _____

2) If you are a private label owner/marketer who contracts an independently certified co-packer to produce your branded products, do you purchase, take title to, or take physical possession of ingredients?

- Not applicable, not working with co-packers. Skip to question A3.
No, co-packer sources and procures ingredients. Skip to section B.
Yes, I source ingredients.

a) If sourcing ingredients, choose all that apply:
I select suppliers.
I purchase ingredients.
I take physical possession of ingredients for storage and ship them to my co-packer.

b) If sourcing ingredients, select which of the following applies:
I provide all organic supplier information to my co-packer and each shipment to the co-packer directly connects back to the certified supplier. Skip to section B. H2.0A COR not required.
I do not provide organic supplier information to my co-packer. H2.0A COR required for organic ingredients. CCOF will list your organic ingredients on your organic certificate, along with finished products.

3) How do you verify that all supplier organic certificates are current for all organic ingredients and products?

Suppliers are listed on H2.0A COR Ingredient Suppliers.

- I request updated, complete certificates annually from each supplier.
I require a current certificate for each shipment.
Other (describe): _____

4) Who is responsible for approving new organic suppliers? How often do you switch suppliers, add new suppliers, make one-off purchases or do "spot purchasing" to prevent shortages? How do you ensure that new suppliers are compliant and approved prior to purchasing?

Add new suppliers to your H2.0A COR form. Frequent changes may result in increased audit trail verification at inspection.

5) For formulations listed on your H2.0B COR Product Formulation form(s), do you control recipes/formulas for products (i.e. own, manage, or have knowledge of the formulation)?

- Yes No Some Not applicable, single ingredient products only.

a) If no or some, indicate who controls which formulations: _____

6) How do you verify that only allowed ingredients, materials, and product formulas are used?

Only ingredients, materials, and formulas appearing on your H2.0A COR, H2.0B COR, and COR Handler Application (OSP Materials List) as approved by CCOF may be used.

- Submit to CCOF for review and approval prior to use, including new suppliers, ingredients, and updated formulas.
Other (describe): _____

7) For finished products labeled "Organic" containing nonorganic agricultural ingredients, attach an H2.7 COR Commercial Availability form for each nonorganic ingredient.

- Attached Not applicable, no nonorganic agricultural ingredients.

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

B. Facilities

- 1) Are products handled at multiple facilities?
a) A list of the facilities:
b) Organic certificates for facilities other than your own:
c) A description of the flow of products between facilities:
2) Attach certificates for all co-packers who produce products for you at their facility.
3) If you have other operations produce products for you, how do you verify that all co-packers' organic certificates are current for all co-packed organic products?
4) If off-site facilities are used to store organic ingredients or products while unsealed or in permeable packaging, complete this table, or provide an attachment with this information.

Table with 3 columns: Storage Facility Name & Location, Ingredients/Products Stored, Documentation. Includes checkboxes for OC* and SFA**.

*Attach the Organic Certificate (OC) for each certified storage facility listed above.
**For any non-certified facilities listed above, attach a COR Storage Facility Affidavit (SFA).

NOTE: COR SFAs must be signed and submitted annually.

C. Labeling

Organic labeling guidelines are available at www.ccof.org/labeling. Submit all labels for all products.

- 1) How do you verify that only allowed labels are used?
2) Do you package any products for private label/marketer customers?
a) If yes, is the Private Label Owner/Marketer CCOF certified for this product?

<i>Example: organic chocolate chips</i>		20	grams	95%
<i>Example: organic wheat flour</i>		50	grams	100%
Total of non salt and water contents (D): <i>Total column (A)</i>				Organic Contribution (G): <i>Total of column (C)</i>
Quantity Salt (E):				
Quantity Water (F):				
Total Ingredient Quantity: Add up (D), (E) and (F)				Total Organic %: Divide (G)/(D)

Round down to nearest whole number

List processing aids used (e.g. Carbon Dioxide, Sodium Bicarbonate, etc.) including packaging aids if not listed above. Only ingredients and materials approved by CCOF and appearing on your [COR Handler Materials Application \(OSP Materials List\)](#) may be used.

¹ CAN/CGSB-32.310 section 9.1.2
² CAN/CGSB 32.310 section 9.1.3
CORB22, V1, R8, 8/20/2021

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ Date: _____

- ▶ Complete this form if you take physical possession of products you sell or distribute, or run a processing or handling facility.
- ▶ Complete one form for each facility/location.

A. General Information

- 1) Facility Name: _____
Business Number: _____
- 2) Site Address: _____ City: _____
State/Province: _____ Zip/Postal Code: _____ Country: _____
- 3) Contact (Name/Title): _____
- 4) Phone: _____ Fax: _____
- 5) Email(s): _____
- 6) Type of processing or handling: _____
- 7) Do you (check one):
 Own this facility Lease this facility
- 8) Do you (check one or both):
 Own the products processed here Provide processing services
- 9) Is this facility:
 Organic only Organic and nonorganic
- a) Do you process or handle nonorganic products identical to organic products?
 Yes No
1. If yes, list products: _____

B. Site Plan and Product Flow

- 1) Attach 8.5 x 11" site map(s) showing all organic processing and storage areas (may be hand drawn). Map attached
- 2) Attach either a complete written description or a schematic product flow chart that describes or shows where and how the product is received, stored, processed, packaged, and warehoused.
 - The flow chart(s) must include all production steps.
 - Identify ALL equipment, machinery, grading stations, and storage areas, and indicate where ingredients are added or processing aids are used.
 - **Submit a separate flow chart for each production type.** Attached
- 3) Describe how any "work in process" (WIP) is identified as organic and protected from prohibited substances:

- 4) For each material used in or on **nonorganic** products in this facility, describe below how you prevent accidental use during organic processing, and how this can be verified at inspection:

- 5) Identify any other material used during any **organic** processing step that is not yet otherwise disclosed:

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ Date: _____

- ▶ Complete this form if you are paid for providing processing or handling services for organic product that you do not own or take title to.
- ▶ If your operation performs organic services only, contact CCOF for further information before completing this form. Your operation may be eligible for an Attestation of Compliance as opposed to an Organic Product Certificate.

A. General Information

- Describe specific services for which you wish to be certified (e.g. nut hulling, storage, cooling):

- Does your service include formulating or processing multi-ingredient products?
 - Yes. Stop, do not complete this form. Complete [H2.0 COR Organic Products](#), [COR Product Application](#), [H2.0A COR Ingredient Suppliers](#) and [H2.0B COR Product Formulation](#).
 - No. Complete this form.

B. Product(s)

- List all sanitizers, processing aids, packaging aids and other **nonagricultural** materials that come into contact with organic products on your [COR Handler Materials Application \(OSP Materials List\)](#).
 - Attached Not applicable, no materials used.
- Do you purchase or supply ingredients as part of your service?
 - Yes No Sometimes
 - a) If sometimes, please explain:

 - b) If yes or sometimes, complete [H2.0 COR Organic Products](#), and skip to question 3.
 - c) If No, how do you verify that incoming customer products are certified organic?
Your inspector will verify that you maintain current organic certificates for your customers on site.
 - Request a current organic certificate annually and keep on file.
 - Request a current organic certificate with each incoming shipment and keep on file.
 - Other (describe): _____
- Do you package or label products?
 - Yes No Sometimes
 - a) If sometimes, please explain:

 - b) If Yes or sometimes, complete the [COR Product Application](#) and attach label(s). Attached

Note – If your operation solely packages and/or labels product that you do not own for others, you may be eligible for an Organic Packaging and Labeling Certificate as opposed to an Organic Product Certificate. Contact CCOF for details.

C. Storage Facilities

- If off-site facilities are used to store organic ingredients or products while **unsealed** or in **permeable packaging**, complete this table, or provide an attachment with this information. Not applicable Attached

Storage Facility Name & Location	Ingredients/Products Stored	Documentation
		<input type="checkbox"/> OC* <input type="checkbox"/> SFA**
		<input type="checkbox"/> OC* <input type="checkbox"/> SFA**

*Attach the Organic Certificate (OC) for each certified storage facility listed above.

**For any non-certified facilities listed above, attach a [COR Storage Facility Affidavit](#) (SFA).

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ Date: _____

“Commercially available” - documented ability to obtain a production input or an ingredient in an appropriate form, quality, quantity or variety, irrespective of cost, in order to fulfill an essential function in organic production or preparation.

When an organic product contains 95% or more organic ingredients, a maximum of 5% non-organic ingredients may be used only if not commercially available in an organic form. Both the non-organic and organic form of an ingredient shall not be used.

- ▶ Complete one form for **each** nonorganic agricultural ingredient used in products labeled “organic” or other material requiring commercial unavailability documentation. Operators are required to update commercial availability information at least on an annual basis.

A. Organic Ingredient Search

1) Nonorganic agricultural ingredient: _____

2) Used in the following product(s): _____

3) Describe your search (potential suppliers, dates, search methods).
*To demonstrate that organic agricultural ingredients are not commercially available, you are expected to **contact at least three potential sources** or explain why this type of search is not possible.*

4) Which criterion makes this product unavailable organically? Check all that apply.

- Form
- Quality
- Quantity
- Variety

a) Please explain your answer using specific details.

B. Annual Plan to Find Organic Form

1) Describe your annual plan to find an organic form.

*Records or documents of **continued efforts** to locate an organic source will be reviewed at your annual inspections.*

2) Describe the record(s) to be used for documenting your search and any product testing each year, or attach a copy. Attached

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ **Date:** _____

- ▶ Complete this form if you take physical possession of products you sell or distribute, or run a processing or handling facility.
- Facility covered by this form** (If different from operation name):

A. Harvest

- 1) Do you harvest organic crops and/or contract out harvest of organic crops?
Records and organic certificates must show that harvested parcels are certified and harvest equipment is cleaned or purged.
 No Yes (describe): _____

B. Receiving

- 1) Do you ever receive organic and nonorganic products at the same time or in the same vehicle?
 Yes No
 a) If yes, what steps are taken to prevent commingling of organic and nonorganic products?
 Labeled pallets Organic product sealed or shrink wrapped Designated organic and nonorganic areas
 Other (describe): _____
- 2) Do any products arrive **unsealed** or in **permeable packaging** (e.g. clamshells, open boxes, trucks) or in **reusable containers/vehicles** (e.g. RPCs, tankers, railcars)?
Transporters that combine or split unpackaged loads must be certified organic.
 No. Skip to question B3. Yes. Complete this section.
 a) If yes, how do you ensure contamination and commingling were prevented during transport (e.g. protection from sanitizer residue, gases, liquids)? Check all that apply.
Transporter records must be available for review at inspection, e.g. bill of lading, manifest, transaction certificate, shipping and delivery records, invoices, chain of custody, truck and trailer numbers, lot number.
 Clean truck affidavit Cleaning and sanitizing material records Certified supplier provides documentation
 Truck cleaning procedures Wash tags Tanker Seals Other (describe): _____
- 3) At receiving, how do you verify that incoming organic products are from approved suppliers, including shipments from uncertified brokers, traders, wholesalers, or distributors? Check all that apply or attach a description.
Receiving records must document verification and be available for review at inspection.
 Approved organic supplier list verified against BOL or packaging/container labels.
 Current organic certificate required with each shipment, supplier verified as approved, certificate verified to list product received.
 For shipments from uncertified vendors, record uncertified handler, certified supplier, and certified supplier lot # on receiving log.
 Other (describe): _____

C. Storage

- 1) How do you ensure organic products are not commingled with nonorganic products in storage?
 Not applicable, all organic. All products sealed and labeled. Storage areas dedicated to, and identified as, organic.
 Other (describe): _____

D. Packaging & Shipping

- 1) Are all packaging materials free of prohibited materials (e.g. fungicides, preservatives, fumigants)?
 Yes Not applicable, no packaging.
- 2) How do you prevent commingling of outgoing organic and nonorganic products?
 Organic never shipped with nonorganic. Clearly labeled packages/pallets. Organic product sealed or shrink wrapped.
 Separate areas in vehicle.
 Other (describe): _____

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

- 3) Are any products shipped in **unsealed** or **permeable packaging** (e.g. clamshells, open boxes, trucks) or in **reusable containers/vehicles** (e.g. RPCs, tankers, railcars)?
Transporters that combine or split unpackaged loads must be certified organic.
- No. Skip to section E. Yes. Complete this section.
- a) If yes, how do you ensure contamination and commingling will be prevented during transport (e.g. protection from sanitizer residue, gases, liquids)? Check all that apply.
Transporter records must be available for review at inspection, e.g. bill of lading, manifest, transaction certificate, shipping and delivery records, invoices, chain of custody, truck and trailer numbers, lot number.
- Clean truck affidavit Cleaning and sanitizing material records Certified supplier provides documentation
- Truck cleaning procedures Wash tags Tanker Seals
- Other (describe): _____

E. Water & Water Additives

Water used in food production must meet applicable drinking water regulations.

- 1) Is water used as an ingredient in organic products or used in direct contact with organic products, e.g. wash or flume water or crops washed in the field?
- No. Skip to question E4. Yes. Complete this section.
- 2) If you treat water on-site (e.g. RO, UV, carbon filtration, water softeners, pH adjustment), does the treated water meet applicable drinking water regulations? Contact treatment manufacturer if you are unsure.
- Yes. *CCOF may request documentation that treated water meets applicable drinking water regulations.*
- N/A, water not treated.
- 3) Is water used in direct contact with organic products, e.g. wash water?
- No. Skip to question E4. Yes. Complete this section.
- a) If yes, do you add any substances to water that contacts organic products, e.g. peracetic acid, hydrogen peroxide, chlorine?
- No Yes, list materials on your [COR Handler Materials Application \(OSP Materials List\)](#).
- b) Do you add **chlorine** to water that directly contacts organic products?
- No
- Yes, attach records or SOP used for monitoring chlorine. Records or SOP will be verified by your inspector. *Chlorine levels in water that contacts organic products shall not exceed maximum levels for safe drinking water.*
- 4) Does steam contact organic products or packaging?
- No. Skip to section F. Yes. Complete this section.
- a) If yes, and steam boiler is used, list each boiler chemical on your [COR Handler Materials Application \(OSP Materials List\)](#) and attach an ingredient statement for each: Attached N/A, no boiler used
- b) If volatile boiler chemicals are used, describe how you prevent organic products from contacting volatile boiler chemicals, e.g. by shutting off boiler chemical feed prior to organic runs (specify # of hours) and conducting condensate tests. Attached

F. Equipment Cleaning and Sanitation

All detergents used on organic contact equipment must be biodegradable. List all detergents and sanitizers on your [COR Handler Materials Application \(OSP Materials List\)](#)

- 1) List all equipment and surfaces that organic products contact during **handling, processing, transport, or storage** and describe the cleaning practices. Or provide this information as an attachment (ex: SSOP for organic): Attached

Organic Equipment/Contact Surface <i>(e.g. totes, processing lines, reused storage containers)</i>	Cleaned? (Y/N)	Purged? (Y/N)	Rinsed? (Y/N)	Documentation <i>(e.g. wash tag, cleaning/production log)</i>

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

- 2) If any surfaces listed above are NOT either cleaned or purged prior to each organic run, explain why not:
-
- 3) If equipment is **purged*** (not cleaned) between runs, describe the purge procedure, including the product and quantity purged, where it goes, and how this is documented. Attached
**Purge – To expel nonorganic product prior to processing organic product from food processing equipment (when equipment cannot be cleaned)*
-
- 4) Do you use any substances for cleaning or sanitation that are not on the COR Permitted Substances List section 7.3?
 No, not applicable. Skip to question F5. Yes. Complete this section.
- a) What removal event do you use to ensure that there are no residues on organic contact surfaces?
 Rinsing
Residue Testing: pH Quaternary Ammonia Other testing: _____
- b) If substances are used that are not on the COR Permitted Substances List section 7.4, how do you minimize the environmental impact of the effluent discharge? Attached
- 5) If cleaning is NOT documented, explain why not:
-

G. Facility Pest Management

- 1) Who is responsible for pest control in your facility?
 In-house Contracted pest control service (name): _____
- 2) Which of the following management practices do you use to **prevent** pests? Must use at least one:
 Remove pest habitat, food sources, and breeding areas. Prevent access to handling facilities.
 Manage environmental factors to prevent pest reproduction (temperature, light, humidity, atmosphere, air circulation).
 Other (describe): _____
- 3) Which of the following practices do you use to **control** pests in organic production and storage areas?
 N/A, none used Mechanical or physical controls, including traps, light, or sound.
 Lures and repellents as listed in Table 8.2 of *CAN/CGSB -32.311, Organic Production Systems- Permitted Substances Lists (PSL)*. List lures and repellents that you apply in organic production and storage areas on your [COR Handler Materials Application \(OSP Materials List\)](#).
- 4) Are the measures listed above in questions G2 and G3 sufficient to prevent or control pests?
 Yes. Skip to question G6. No
- a) If no, explain: _____
- b) If no, list pest control materials from Table 8.2 of the PSL that you apply in organic production and storage areas on your [COR Handler Materials Application \(OSP Materials List\)](#).
Table 8.2 PSL materials include carbon dioxide, vitamin D3, boric acid, diatomaceous earth, and more.
- 5) Are Table 8.2 PSL materials listed on your OSP Materials List sufficient to prevent or control pests?
 Yes No N/A, none used
- a) If no, explain below (or attach justification). List pest control materials **not on the PSL** that you apply in organic production and storage areas on your [COR Handler Materials Application \(OSP Materials List\)](#). Letter of justification attached
-
- 6) How do you prevent pest control materials from contacting organic products, ingredients, and packaging materials?
 Remove product and packaging from areas to be treated Wash and rinse organic contact surfaces after treatment
 Cover equipment used for organic handling Purge equipment with nonorganic product
 Other (describe): _____
- 7) Where do you record pest control material use and measures taken to protect organic products or packaging?
 Pesticide Use Log Log describing removal/reentry of products and packaging Purge log
 Other (describe): _____
-

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: _____ Date: _____

An "Audit Trail" or "trace-back" system is documentation sufficient to determine the source, transfer of ownership and transportation of organic products. Certified operations must maintain records of processing/handling of organic crops that fully disclose all activities and transactions in enough detail to be readily understood and audited. They should be sufficient to demonstrate compliance with organic laws and standards, and kept for at least five (5) years.

Complete a separate H5.0 Record Keeping form for each process or product when different record keeping systems are used.

Facility, product and/or process covered by this plan:

A. Location of Records

Location where your records regarding organic products are available for inspection.

Address: _____

City: _____ State/Province: _____ Zip/Postal Code: _____ Country: _____

Contact(name/title): _____

Phone: _____ Fax: _____ Email(s): _____

B. Tracking Organic Products

1) Describe or attach a diagram of how your audit trail/trace-back system tracks finished products from inbound receiving through production or packing to final outbound shipping or invoice. [] Diagram attached

You may attach sample documents (BOLs, packing slips, inventory logs, batch records, manifests, transaction certificates, shipping and delivery records, invoices, chain of custody, truck and trailer numbers).

[] Records attached [] Product Recall System attached

2) Describe the records and system you use to track inventory of ingredients and products (in/out balance). You may attach samples to illustrate (i.e. monthly log of beginning and ending inventory).

C. Lot Numbering [] Not applicable

1) Describe your lot numbering system for finished products or attach a description.

EXAMPLE: Lot Number: 0123A045

Table with 6 columns: Code, 0, 123, A, O, 45. Signifies: Year: 2000, Julian date :production, Shift, Organic, Plant location

Lot Number: _____

Table with 7 columns: Code, Signifies, and five empty cells.

2) Are lot numbers printed on wholesale and retail packaging?

[] Yes [] No

a) If yes, where is your lot number found on containers or packages? _____

3) How is lot number associated with outgoing shipments?

[] On invoice or Bill of Lading [] On a "pick list" or "ship list" [] Other (describe): _____

Global Market Access (GMA) Application

Find this form at www.ccof.org/documents

- ▶ The CCOF GMA program reviews your operation for compliance with the requirements of equivalence arrangements between:
 - USDA National Organic Program (NOP) with Canada, the EU, UK, Japan, Korea, Switzerland, and Taiwan
 - Canada Organic Regime (COR) with the US, the EU, UK, Japan, Switzerland, and Taiwan
- ▶ Complete information regarding program and export market requirements and fees can be found in the [GMA program manual](#).

You will be enrolled in the GMA program if you check any of the following:

- ▶ **I am in the US (certified to NOP), and I:**
 - Export CCOF certified organic products to Canada, the EU, UK, Japan, Korea, Switzerland, Taiwan from the US.
 - Design labels for products that will be sold in Canada, the EU, UK, Japan, Korea, Switzerland, or Taiwan.
 - Sell CCOF certified organic products to any buyer who requires international verification.
- ▶ **I am in Mexico (certified to NOP), and I:**
 - Export CCOF certified organic products to Canada from Mexico.
 - Design labels for products that will be sold in Canada.
 - Sell CCOF certified organic products to any buyer who requires Canadian verification.
- ▶ **I am in Canada (certified to COR), and I:**
 - Export CCOF certified organic products to the US, the EU, UK, Japan, Switzerland, or Taiwan from Canada.
 - Design labels for products that will be sold in the US, the EU, UK, Japan, Switzerland, or Taiwan.
 - Raise livestock or make livestock products that are exported to the US from Canada.
 - Sell CCOF certified organic products to any buyer who requires international verification.

The following require a different CCOF program and application:

- ▶ **CCOF International Standard program:** Operations located in Mexico who plan to export directly to the EU, UK, or Switzerland. www.ccof.org/certification/services/ccof-international-programs
- ▶ **Mexico Compliance Program:** US based operations who plan to export to Mexico. www.ccof.org/certification/services/ccof-international-programs
- ▶ **GMA Wine program:** US operations who plan to export wine to the EU, UK, or Switzerland. You must complete the GMA application (this form) and the [GMA Wine Approval Application](#).

A. General Information

Operation Name:	Client Code:	Date:
1. Which foreign markets are you planning to export to, directly or indirectly (as an ingredient or through brokers/traders etc.)	<input type="checkbox"/> Canada <input type="checkbox"/> EU/UK <input type="checkbox"/> Japan <input type="checkbox"/> Korea <input type="checkbox"/> Switzerland <input type="checkbox"/> United States <input type="checkbox"/> Taiwan <input type="checkbox"/> Other:	
2. What products or crops do you plan to export directly or indirectly (as an ingredient or through brokers/traders etc.) to these foreign markets?	<input type="checkbox"/> All <input type="checkbox"/> Limited. Describe:	
3. Do you have systems in place to separate ingredients and finished products that meet different international standards, to avoid commingling?	<input type="checkbox"/> Yes, systems in place. Describe: <input type="checkbox"/> N/A, all products meet identical standards.	

B. Labeling and Product Identification

- ▶ **All labels used for exported products must meet the labeling requirements of the importing country.** Each country has different labeling requirements. Review the [International Market Labelling Guide](#) for more information. CCOF only reviews English, Spanish, and national seals. Work with your importer to ensure that other labeling elements meet the requirements of your export market.

1. Have you or your importer ensured that labels are compliant with the requirements of the destination market?	<input type="checkbox"/> Yes. <i>You or your importer are responsible for ensuring that labels meet other requirements in the destination market, in addition to organic requirements.</i> <input type="checkbox"/> No labels. Product is bulk/wholesale (non-retail) and required information is provided in shipping/sales documents. <i>Allowed for EU, Japan, Korea, Switzerland, Taiwan, and UK. Allowed for export to Canada only when product is unpackaged i.e. shipped by railcar.</i>
-----------------------------------------------------------------------------------------------------------------	----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

Global Market Access (GMA) Application

<p>2. How are your exported products labelled? <i>Select all that may apply to any exported product.</i></p>	<p><input type="checkbox"/> I use export labels that are different from my domestic labels. <i>Submit all export labels to CCOF for pre-approval prior to printing. Ensure export labels meet requirements in the International Market Labelling Guide.</i></p> <p><input type="checkbox"/> I use the same labels that are already approved for domestic sales. <i>Ensure existing labels meet requirements in the International Market Labelling Guide.</i></p> <p><input type="checkbox"/> Importer labels product and has ensured that labels meet the requirements of the destination market. <i>CCOF does not review labels applied by your importer.</i></p> <p><input type="checkbox"/> No labels. Product is bulk/wholesale (non-retail) and required information is provided in shipping/sales documents. <i>Allowed for EU, Japan, Korea, Switzerland, Taiwan, and UK. Allowed for export to Canada only when product is unpackaged i.e. shipped by railcar.</i></p> <p><input type="checkbox"/> N/A, do not directly export. Describe:</p>
<p>3. Do your export labels meet NOP (US) or COR (Canada) labelling requirements?</p>	<p><input type="checkbox"/> No. Containers and documents are marked "For Export Only" and evidence will be available during CCOF inspections. <i>Required.</i></p> <p><input type="checkbox"/> Yes. Export labels meet NOP or COR labelling requirements.</p> <p><input type="checkbox"/> N/A. Describe:</p>

C. Supplier Verification

► If you are exporting products produced or manufactured by other operations, you will need to demonstrate that the entire supply chain is compliant or equivalent to the destination market. CCOF does not require additional verification for NOP or COR certified products when they are not at risk of the critical variances for the destination market.

<p>1. Do you have documentation that all suppliers meet the critical variances described in section D or F below for the applicable standard? <i>For products exported to markets with no critical variances listed in section D or F, additional documentation is not required.</i></p>	<p><input type="checkbox"/> Yes. Attach certificates or affidavits for all suppliers where there is a critical variance listed in section D or F below.</p> <p><input type="checkbox"/> N/A, no suppliers, I grow my own crops or livestock products for export.</p> <p><input type="checkbox"/> N/A, I plan to export products to Canada that are not on the list of high-risk crops at www.ccof.org/canada</p> <p><input type="checkbox"/> N/A, I plan to export products to the US from Canada that do not contain livestock products. <i>Operations in Canada.</i></p> <p><input type="checkbox"/> N/A, I plan to export products to markets with no critical variances. <i>See sections D or F below.</i></p> <p><input type="checkbox"/> No. List suppliers that do not meet critical variances in sections D or F below:</p>
---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------

D. NOP Exports (Operations in the US/Mexico): Critical Variances (Only answer for applicable markets)

Market	Management Practice/Concern	Answer
Canada (Prohibited)	1. Do you grow or use agricultural products produced with the use of sodium (Chilean) nitrate?	<p><input type="checkbox"/> No, sodium nitrate is not used in agricultural products. <i>Handlers must provide supplier attestation or certifier verification for any ingredients/supplies at high-risk for sodium nitrate. See the CCOF Canada website for high-risk crops.</i></p> <p><input type="checkbox"/> Yes, sodium nitrate is used in agricultural products. <i>Prohibited for export to Canada.</i></p> <p><input type="checkbox"/> Sodium nitrate is used in some agricultural products but not others. Describe:</p>
Canada (Prohibited)	2. Do you grow or use agricultural products produced by hydroponic or aeroponic production methods?	<p><input type="checkbox"/> No, hydroponic/aeroponic methods are not used. <i>Handlers must provide supplier attestation or certifier verification for any ingredients/supplies at high-risk for hydroponic/aeroponic methods. See the CCOF Canada website for high-risk crops.</i></p> <p><input type="checkbox"/> Yes, hydroponic/aeroponic methods are used. <i>Prohibited for export to Canada.</i></p> <p><input type="checkbox"/> Hydroponic/aeroponic methods are used in some agricultural products but not others. Describe:</p>
Canada (Required)	3. Do all organic non-ruminant livestock & livestock products meet the livestock stocking rates set forth in the Canadian Standard?	<p><input type="checkbox"/> Yes, all non-ruminant livestock & products meet the stocking rates. <i>Handlers must provide supplier attestation or certifier verification for any non-ruminant livestock ingredients/supplies.</i></p> <p><input type="checkbox"/> No, non-ruminant livestock do not meet the stocking rates set forth in the Canadian Standard. <i>Prohibited for export to Canada.</i></p> <p><input type="checkbox"/> Only some meet the stocking rates, others do not. Describe:</p>

Global Market Access (GMA) Application

Korea (Required)	4. Are products planned for export considered "processed foods" as defined by Korean Food Code (i.e. transforming raw commodity so that the original form cannot be recognized)?	<input type="checkbox"/> Yes, I plan to export processed food as defined by Korean Food Code. <input type="checkbox"/> No, all of the products I plan to export are raw or unprocessed. <i>Prohibited for export to Korea.</i> <input type="checkbox"/> Some products I plan to export are raw or unprocessed. Describe:
Korea (Required)	5. Does final processing (as defined in the Korean Food Code) occur in the U.S.?	<input type="checkbox"/> Yes, I plan to export products processed in the US. <input type="checkbox"/> No, I plan to export products processed outside the US. Prohibited for export to Korea. <input type="checkbox"/> No, all of the products I plan to export are raw or unprocessed. Prohibited for export to Korea. <input type="checkbox"/> Some products I plan to export are processed outside the US. Describe:
EU, UK, Switzerland, Japan, Taiwan (Required)	6. Does final processing or packaging occur in the US?	<input type="checkbox"/> Yes, I plan to export products processed or packaged in the US. <input type="checkbox"/> No, I plan to export products processed or packaged outside the US. Prohibited. <input type="checkbox"/> Some products I plan to export are processed or packaged outside the US. Describe:

E. NOP Exports (Operations in the US/Mexico): Equivalency Exclusions

Market	Product	Details
Canada	1. Pet food, personal care products, and natural health products.	These products are not covered by the equivalency but may be sold as NOP certified in Canada. Reference to COR is prohibited.
EU, UK, and Switzerland	2. Wine.	If you produce or export wine for the EU, UK or Switzerland, you will also need to complete the GMA Wine Approval Application in addition to this application.
EU and UK	3. Aquatic animals (fish, shellfish) and personal care products.	Aquatic animals are excluded both for export to EU/UK and export out of EU/UK to the US.
Japan	4. Alcohol, non-food processed products, and honey.	These products are not covered by the equivalency but may be sold as NOP certified in Japan. Reference to JAS is prohibited. Products containing honey (up to 5%) may be exported under the equivalency.
Taiwan	5. Aquatic animals (fish, shellfish) and honey.	Aquatic animals are excluded both directions. Pure honey is excluded from the equivalency. Processed products containing honey may be exported under the equivalency.

F. COR Exports (Canada Operations only): Critical Variances (Only answer for applicable markets)

Market	Management Practice or Product	Answer
US (Prohibited)	1. Do you produce or use product produced from livestock treated with antibiotics?	<input type="checkbox"/> No, livestock products were produced without antibiotics. <i>Handlers must provide supplier self-attestation or certifier verification.</i> <input type="checkbox"/> Yes, livestock products were produced with antibiotics. Describe:
EU, UK, and Switzerland (Required)	2. Are all unprocessed plant products, live animals or unprocessed animal products, and vegetative propagating material and seeds for cultivation grown in Canada?	<input type="checkbox"/> N/A, only processed products exported. <input type="checkbox"/> Yes, all grown in Canada. <input type="checkbox"/> No, grown outside of Canada. Describe:

G. COR Exports (Canada Operations only): Equivalency Exclusions

Market	Product	Details
Japan	1. Alcohol, seaweed, and honey.	These products are not covered by the equivalency but may be sold as COR certified in Japan. Reference to JAS is prohibited. Products containing honey (up to 5%) may be exported under the equivalency.
Taiwan	2. Honey.	May not be sold as organic in Taiwan.
