

The CCOF Canadian Organic Regime (COR) Compliance Program is ONLY for operations located in Canada

Operation Name: \_\_\_\_\_

Date: \_\_\_\_\_

- ▶ If your operation purchases, sources, brokers, or distributes ingredients, list all ingredients used in organic products, including "work in progress" ingredients made in house. Update this form as you add new suppliers.
- ▶ For each multi-ingredient ingredient, submit an ingredient statement from the manufacturer to compare to your label.
- ▶ All nonorganic materials that contact organic products (i.e. processing aids, sanitizers, and packaging aids) must be listed on your OSP Materials List, not this form. For each nonorganic ingredient or processing aid not previously approved by CCOF, submit a COR Nonorganic Processing Material Affidavit or COR Natural Flavour Affidavit, available at [www.ccof.org](http://www.ccof.org). Once certified, search for approved materials on [MYCCOF](http://MYCCOF). Private label owners who do not manufacture are not required to submit nonorganic ingredients or processing aids for review.
