

CCOF International Standard Application - Grower

For your convenience, an E-form version of this document is available online at www.ccof.org

Complete this form to enroll in the CCOF International Standard program.

This program is equivalent to the EU and Swiss organic standards. Enrollment in the CCOF International Standard program means that CCOF will review your operation for compliance with our private standard, and will grant you equivalence to the EU and Swiss standards.

Enrollment in this program is **ONLY** required if you are located in Mexico and do one of the following:

- Export organic product directly to the EU or Switzerland.
- Provide final processing in Mexico for a product exported to the EU or Switzerland.
- ▶ The CCOF International Standard program is dependent on certification to the US National Organic Program as a base level of compliance.
- ▶ Please review the CCOF International Standard program manual available at www.ccof.org for clarifications about the program and an explanation of fees.

A. GENERAL INFORMATION

Operation Name:	Date:
1. Review the standards and requirements of this program in the CCOF International Standard Program Manual (available at www.ccof.org).	<input type="checkbox"/> I have reviewed the CCOF International Standard Manual Comments/Questions:

B. INPUT MATERIALS

Do you use this material in your organic farm production?	Answer	Restrictions
1. Sodium Nitrate (Chilean Nitrate NaNO ₃)	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Prohibited
2. Spinosad for pest control	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Non-GMO only. Measures must be taken to minimize risk to key parasitoids and developing resistance.
3. Poultry manure from caged birds	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	"Factory Farmed" raw manure prohibited
4. Cow manure from animals treated with r-bGH	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	"Factory Farmed" raw manure prohibited
5. Vitamins B ₁ , C, & E	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Prohibited.
6. Copper Sulfate or Copper Hydroxide	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Restrictions on annual amount used. See International Standard Program Manual for details.
7. Peat	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	May only be used in potting mixes.

CCOF International Standard Application - Grower

Do you use this material in your organic farm production?	Answer	Restrictions
8. Ammonium Carbonate	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Prohibited
9. Boric Acid	<input type="checkbox"/> No <input type="checkbox"/> Yes, list crops and parcels:	Prohibited

C. PRODUCTION AND LABELING

All labels must meet the requirements of the country to which they are imported. All labels must be submitted to CCOF for approval prior to printing. **Review the CCOF International Standard Program Manual for specific requirements and details.**

Practice	Answer	Requirement
1. Are any of your organic crops from aeroponic or hydroponic production?	<input type="checkbox"/> No <input type="checkbox"/> Yes, list:	Prohibited
2. Do wholesale containers, produce boxes or accompanying documents (BOLs etc.) contain required information?	<input type="checkbox"/> NA, no non-retail containers used <input type="checkbox"/> Yes <input type="checkbox"/> No, explain:	Required (appears on mandatory accompanying export document issued by CCOF)
3. Has any retail packaging that will be exported been submitted to CCOF for review and approval? All labels included under your certification, including private labels or contracted production, must be disclosed to CCOF prior to production.	<input type="checkbox"/> NA, no retail packing <input type="checkbox"/> Yes <input type="checkbox"/> No, explain:	Labels produced to foreign standards that do not meet NOP standards are required to be labeled "For Export Only" on master cases etc.

D. SPLIT AND PARALLEL PRODUCTION

Parallel production is defined as growing visually indistinguishable crops both organically and non-organically without clear physical, financial, and operational separation. Operations with parallel production may require additional separation and/or efforts to demonstrate compliance for this program. Operations may be required to separate their business operations and/or holdings between organic and non-organic. **Review the CCOF International Standard Program Manual for specific requirements and details.**

1. Do you grow any of the same visually indistinguishable varieties organically and non-organically?
 No Yes, complete table below to help CCOF establish whether your operation is engaged in parallel production.

Type of Separation	Answer	Please describe your situation in detail below. COMPLETE ANSWERS ARE CRITICAL
2. Do you maintain clear physical separation of fields, post-harvest handling, and storage?	<input type="checkbox"/> Yes <input type="checkbox"/> No	
3. Do you maintain clear separate records of harvest and sales?	<input type="checkbox"/> Yes <input type="checkbox"/> No	
4. Do you maintain clear separate accounting for inputs and sales?	<input type="checkbox"/> Yes <input type="checkbox"/> No	
5. Do you maintain a separate business name or marketing identity for your organic and non-organic operations and/or crops?	<input type="checkbox"/> Yes <input type="checkbox"/> No
