

Seed and Planting Stock Record

This record is for documenting the seed and planting stock you use and its status. Keep receipts and other relevant documentation with your records. Remember that although you may use nonorganic seed and planting stock if they are not available in organic form, you must maintain documentation regarding the organic status of the seed/stock, and whether it was non-GMO and untreated. Documentation regarding your search for an organic equivalent is also required if you use nonorganic seed/stock. Annual transplants must always be certified organic.

Operation Name: _____ **Year:** _____

Crop/Variety	Supplier	Lot #	Documentation of organic status?	Documentation of non-GMO status?	Documentation of untreated status or allowed treatment?	Place planted	Date planted	Quantity planted
			<input type="checkbox"/> Yes	<input type="checkbox"/> Yes	<input type="checkbox"/> Yes
