The percentage change must be determined by the Department of Finance and must include at least the total percentage change in salaries and operating expenses of the state department. However, the total increase in amounts collected under this section must not exceed the total increased cost of the program or service provided.

(b) When the registration fee is not paid within 60 days from the expiration date, the account may be considered closed and the registration voided. A notification may be sent to the registrant that they are no longer able to advertise or sell cannabis products as OCal until the account is paid in full.

(f) If at any time the manufacturer does not possess an active and valid cannabis license pursuant to Section 22115 or does not possess an active and valid OCal certification pursuant to Section 22115, the department registration is considered automatically and immediately suspended by the department.
